

Home

Crew is the Volunteer Systems Group at CCIS. We are a group of self-motivated students (not a student group) who investigates new and potentially cool technologies, organizes and performs research & development for the CCIS Systems Group, and strives to improve and produce services that benefit the CCIS community.

If you are interested in working on one of our projects. Stop by 312WVH aka 'The Pit'.

[Summer 2014](#)

[Fall 2014](#)

Resources

1. [How to git with proper etiquette](#) - Required for working on any of the Crew repos.
2. [Crew U](#)
Crew U is a place to learn the basics. There will be tutorials here covering everything from networking to programming languages and beyond!
3. [IRC](#)
A chatroom for us to hangout and chat. Discuss your ideas and run it by someone else!
4. [Infrastructure](#)
Detailed explanation of the current Infrastructure as well as the planned infrastructure.
5. If you are looking for anything from the previous Crew Wiki check out [OLD](#)
6. [Wordpress Ubuntu Install](#)
How to install wordpress on Ubuntu

[Wishlist](#) – We are always looking for more things to make our space more productive! Here's a list of things that we think would be really useful to the pit. If you have any of these things laying around or want to help us out by getting us these things we would greatly appreciate it!
