

Infrastructure

At Crew we have a very complicated Infrastructure. Once *Eddie* talks to the right people and gets a VM for foreman, we'll setup a openstack provisioning our 5 physical machines and control them with puppet through foreman

Public IP Space

- alpha.ccs.neu.edu - 129.10.115.113 - VLAN 115 and VLAN 314
- crew-www.ccs.neu.edu - 129.10.115.80 - VLAN 115 and VLAN 314

VLANs

- VLAN 115 - Public IPs
- VLAN 314 - Crew Internal Network - All ports in room 312 "The Pit" are assigned to this VLAN, with the exception of the port connected to Sunflora which is on the CCIS-Windows network.

Machines

- 10.0.0.1 - alpha - Current gateway.
- 10.0.0.2 - foreman - Will become gateway. Hosts DNS and DHCP server. Hosts Foreman server for Puppet.
- ? - crew-www - Hosts crew.ccs.neu.edu, pitcam.ccs.neu.edu.
- 10.0.0.61 - grandma - Future WordPress host for DDS.
